

CHECKING IN & REACHING OUT

As part of our COVID-19 response, Kinsight launched an outreach service to support people we work with during the pandemic. We understand that some people cannot leave their homes to purchase groceries and supplies, or may not have enough money to do so. We also know that people are running out of engaging activities and stimulating things to do, which can cause additional stress. To support families, adults and caregivers in need, Kinsight offers:

- Groceries and supplies purchased and delivered
- Gift cards to purchase groceries and supplies
- Activity kits
- Online connections and learning through CoMakeDo.ca

Unless otherwise noted, the information below represents activity through May 2020
